About Me

Motivated and detail-oriented BSCS student with a strong interest in web development, graphic design, and digital marketing. I have practical experience creating professional designs using Canva and developing basic websites using HTML and CSS. I am continuously improving my technical and creative skills through personal projects and hands-on practice. I am eager to learn, take on new challenges, and contribute effectively in a professional environment.

Experience

Practical Experience

· Created **social media posts, flyers, posters**, **invitation cards, and promotional designs** using Canva.
· Developed basic responsive web pages using **HTML and CSS** as part of personal learning and portfolio projects.
· Worked on academic and personal projects involving **programming, database management, and software development**.
· Practiced creating professional **digital content** and improving **visual layouts**, **typography**, and **branding.**
